

**STUDENT RESOURCES
SCHEME**

2025

FROM THE PRINCIPAL

Dear Parents/Guardians,

Thank you for taking the time to read this important document about the Student Resource Scheme at Holland Park State High School.

The education of children in state schools is a partnership between parents and the Government, under the Education (general Provisions) ACT 2006 (QLD), the cost of “instruction (teaching), facilities (buildings) and administration (schools operation costs, power, water ETC) are met by the state. State funding does not extend to individual student resources such as textbook, equipment for personal use and items used/consumed by the student in the classroom. Parents are responsible for supplying these items that are required to assist with students’ learning. If buying them individually this can become extremely costly for families, therefore to ease the burden of this to parents, Holland Park State High School operates a Student Resource Scheme.

The school has the ability to bulk purchase educational items through government approved suppliers’ programs, allowing us to provide resources at a reduced rate to what single purchases can source.

Participation in the scheme is voluntary and parents/ caregivers are under no obligation to join the scheme, however if you elect not to join the scheme, you will need to provide all necessary textbooks, resources and materials for your student for the whole year.

The Student Resource Scheme operates under the policy and guidelines of the Department of Education and is endorsed annually by the P&C Association. Payment options are available and should you be experiencing financial difficulties, please contact the Finance Business Manager to discuss your options. We look forward to building a strong partnership with you to ensure the best educational experience for your students.

Kind regards

Bindi Lodge

Principal
